**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We would like more competition in our choice of internet providers. Trump has promised to fight for us. Tucker Carlson is exposing corporate dominance of the economy at our expense. Fox Business News says there are fewer and fewer companies on the stock market due to mergers and that's dangerous. But it isn't a political issue. Tucker just showed that Sanders is fighting big corporations and Steve Bannon said that Elizabeth Warren does too, so breaking up "big internet" and other big corporations is central to people's needs and to a healthy economy, whichever party is governing.

We would like the government to work towards supporting the growth of smaller, local businesses including good, responsive, local internet providers who don't favor their own content (because they don't produce any) but are able and willing to provide all services and content equally.

Thank you very much,

Mary Brent
